

DHF PURCHASES LOT FOR NEW MINISTRY CENTER

On May 4, DHF purchased a lot in Lovington, Illinois as the site for the proposed DHF Ministry Center. The lot has one old garage and several trees that need to be brought down. When those are removed, it will be ready for gradework. The site is 2 ½ blocks from the current DHF office building.

We are currently working to get a volunteer crew together to remove the garage. If anyone with the appropriate equipment would like to help with tree removal and trimming, we would love to hear from you.
