

## Park Street Christian Church celebrates 140<sup>th</sup> anniversary

Park Street Christian Church, Geneva, Ohio, celebrated 140 years of worship and service on October 21. As well as a celebration of their anniversary, the congregation made the gathering an official welcoming of their new pastor James (J. J.) Stewart.

Park Street Christian Church was founded 140 years ago by a small group of people interested in the restoration movement. They contacted the Methodist Church after hearing their sanctuary was going to be torn down to make room to build a new building. The old church was rolled on logs a hundred yards or so to a new location. That old building still comprises the worship area of Park Street Christian Church.

The 140th anniversary celebration included a pot luck dinner after church. A number of people who had not been to the church for years were on hand for the celebration.
