

PRAYER CONCERNS

Several friends of DHF are in need of special prayers:

Joan Bowman (Richard's wife) has been diagnosed with cancer in her abdomen. They are still uncertain of the prognosis. They will be visiting doctors over the next few days to learn what her treatment options are.

Earl Bowers recently learned that he has lymphoma. He is being evaluated for treatment possibilities.

David and Heather Birch's daughter Naomi had surgery for cervical cancer last week.

DHF has several missionaries who need prayer during the violence in Kenya. Jeff Osborne and Lynn and Dori Cazier are in Kenya right now. Gary and Judy Woods have had to postpone their return to Kenya and Tanzania until the country settles down.
