

PRAYER CONCERNS FOR DHF LEADERS

Several DHF leaders are in need of special prayer at this time.

Joan Bowman is the wife of DHF's former Executive Director, Richard Bowman. Joan has been diagnosed with widespread cancer in her abdomen. She is currently undergoing chemotherapy. In a few weeks she will have surgery, then another round of chemo.

Earl Bowers, a DHF pastor and former DHF board member, is being treated for lymphoma. As we put this e-connection out, he has completed a first round of chemotherapy and is awaiting tests to evaluate the effectiveness of the treatments. His doctors have been encouraging about the possibility of defeating this particular cancer through treatments.

Mark Hillis, co-pastor of Faith Harvest Church, a DHF congregation in Mesa, Arizona, has received a preliminary diagnosis of lymphoma. He needs a biopsy to confirm the diagnosis before he can get financial help from the state for treatments. For more information on Mark's situation and how you can help, please see the related article in this e-connection.
